# Moonrhymes

## Program notes:

Written with the theme of family in mind, *Moonrhymes* is based on nursery rhymes from different cultures.

The piece is comprised of three movements (, in addition to an introduction and a finale, all played without a break): each of them focuses on a traditional song from a different origin: the English-Irish “Danny Boy,” the Latin “A La Nanita Nana,” and the Israeli-Yiddish “Numi Numi.”

While such tunes have been sung as lullabies for many years, their lyrics are often more bleak than what might seem appropriate for bedtime. My treatment of these melodies takes them thus to mysterious, reflective, and dark places, using folk elements from various cultures.

*Moonrhymes* plays with the question of what rhyming could mean in instrumental music. Literal rhymes feature similarities in sound between words: the endings of rhyming words usually sound identical, while the beginnings are different. Likewise, the themes of the piece are very similar to the original tunes, but each carries a significant musical difference in pitch, rhythm etc. Additionally, many moments in the piece “rhyme” with one another: Accompaniment figurations reoccur while supporting different tunes (such as a repeated arpeggiated minor-7<sup>th</sup> chord), sounds and textures repeat through the piece (such as “glassy” chords in the violins using harmonics), and musical themes float again and again into the surface (such as the melody of “Rock-a-bye Baby,” another popular lullaby that features disturbing lyrics and serves as a transition between the movements).

In the finale, all tunes—and cultures—join together: The Yiddish-based “Numi Numi”, with its Phyrgian mode, is heard in the bass and provides the foundation for “Danny Boy” and its iconic English-American use of the pentatonic scale, while also supporting figurations from both “Nanita” (featuring a highly-embellished minor-scale Spanish melody) and “Rock-a-bye Baby” (whose sweet melody is disguised under darker harmonies).

## Performance notes:

In all solos, performers may embellish the melodies and modify current embellishments as desired; in these sections, treat glissandos and small-font notes as suggestions.
